

SLIMCART™

MOBILE DOCUMENTATION CART

CAPSAHEALTHCARE

SlimCart™

Mobile Documentation Cart

The NEW non-powered, ultra-lightweight SlimCart™ provides a flexible, cost-effective solution for clinical documentation in any healthcare environment. It's compact profile allows for simple mobility in hallways, through doorways, and in and around a patient's room. The SlimCart™ offers a generous work surface with a bi-directional slide-out mouse surface, and is configurable with your choice of laptop, tablet or lightweight monitor. Add optional key-locking drawers and convenience accessories to support your facility's EHR documentation at the point-of-care.

SlimCart™ offers an ultra-lightweight, compact solution for clinical documentation in a host of healthcare environments.

- Hospital/Acute Care
- Surgery Centers
- Extended Care/Nursing Homes
- Animal Health Facilities
- Dental Clinics
- Physician's Office
- Education Simulation
- Rehab Facilities

SlimCart™
