

Tablet Carts

Overview.

From simple roll stands to fully integrated telehealth workstations, our medical tablet cart portfolio offers solutions for virtually every healthcare application. With more than a dozen base models, modular accessories, and flexible mounting options, each cart can be configured to meet your workflow, technology, and mobility requirements.

Built for the way care happens.

Highly configurable

Choose from fixed or articulating arms, integrated accessories, and technology packages to build the right solution for your application.

Built around your device

Compatible with a wide range of tablets and accessories, each cart can be configured to support cameras, speakers, power options, scanners, and more.

Expert recommendations

With dozens of models and configurations available, our team helps you evaluate the options and recommend the solution that best fits your workflow.

The right cart for every application.

Not every tablet deployment has the same requirements. That's why we offer a wide range of platforms, mounting options, and accessories that allow you to build a solution around your workflow, technology, and clinical goals.

Trusted partner.
